GILBERT AVENUE STREETScape

As part of the City's investment and enhancement in the neighborhoods of Walnut Hills and Central Downtown, crews of Tri-State Construction Company will construct nine (9) new landscaped median islands on Gilbert Avenue from Eden Park Drive to East McMillan Street. The improvements include new decorative concrete and granite pavers along with the construction of new concrete walk and curbs.

Crews will perform the work between the hours of 9:00 a.m. and 4:00 p.m. to minimize the impact to traffic. Tri-State Concrete Construction Company will begin work the week of June 25, 2007.

The project is anticipated to be completed by October of 2007.

This work may cause some delays to travelers, so motorists may wish to seek alternate routes to their destinations.
